**To O.W.L.S.(Older Wiser Laughing Souls)**

Whether a man winds up with a nest egg, or a goose egg, depends a lot on the kind of chic he marries

Trouble in a marriage often starts when a man gets so busy earin' his salt he forgets his sugar.

The parishes that have brought us together and connected us with each other and with God through Jesus in the Sacraments are changing. Look around and see how different it is to the experience of our parents going to church locally.

Life has changed: Work and play, Transport and communication, Needs and wants. What will make the change most clear is the disappearance of priests from parishes. Right now no men are studying for the priesthood in Kerry, the average age of priests in Ireland is 67 and this is going to impact on us suddenly and decisively and soon.
